

SHANDONG SHENLI RIGGING CO., LTD.

Certificate

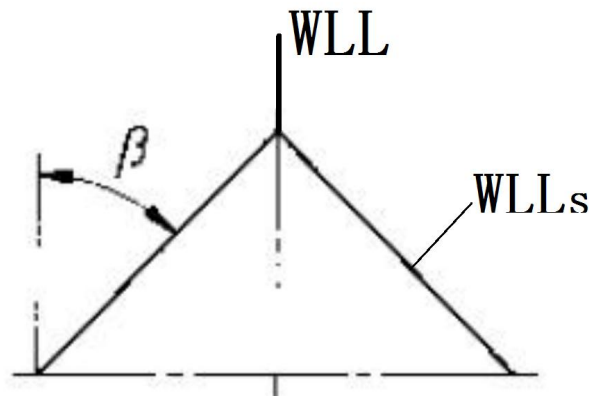

TO PERSON CONCERNED:

We hereby confirm the following:

Our Master Link SLR1011-27NF (1613-10) is suitable for a 7 tonne lift using a 2 leg G100 sling, when used in a manner that the angle between the two legs is equal to or less than 117° . Please refer to following diagram, the angle β should be less than 58.5° .

Note: Formula to calculate: $WLL = WLLs \times \cos\beta \times 2 = 6.7 \times \cos 58.5^\circ \times 2 = 7\text{Ton}$
